

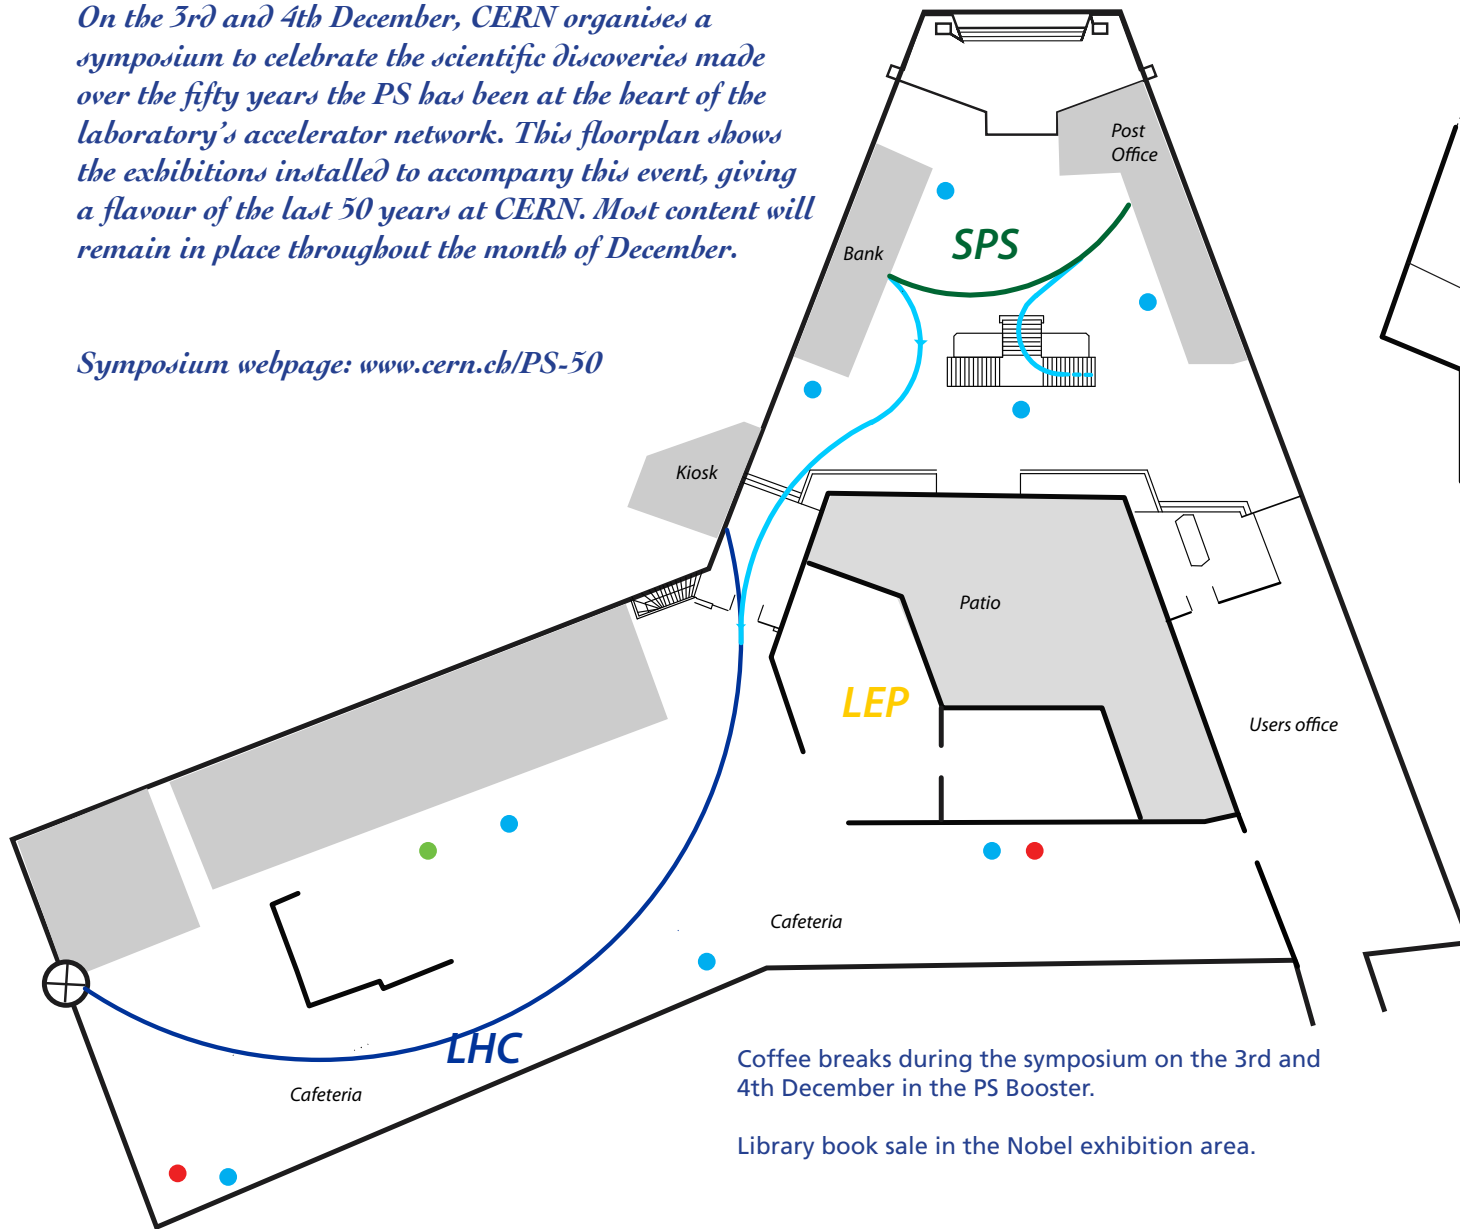

Exhibition floor plan

On the 3rd and 4th December, CERN organises a symposium to celebrate the scientific discoveries made over the fifty years the PS has been at the heart of the laboratory's accelerator network. This floorplan shows the exhibitions installed to accompany this event, giving a flavour of the last 50 years at CERN. Most content will remain in place throughout the month of December.

Symposium webpage: www.cern.ch/PS-50

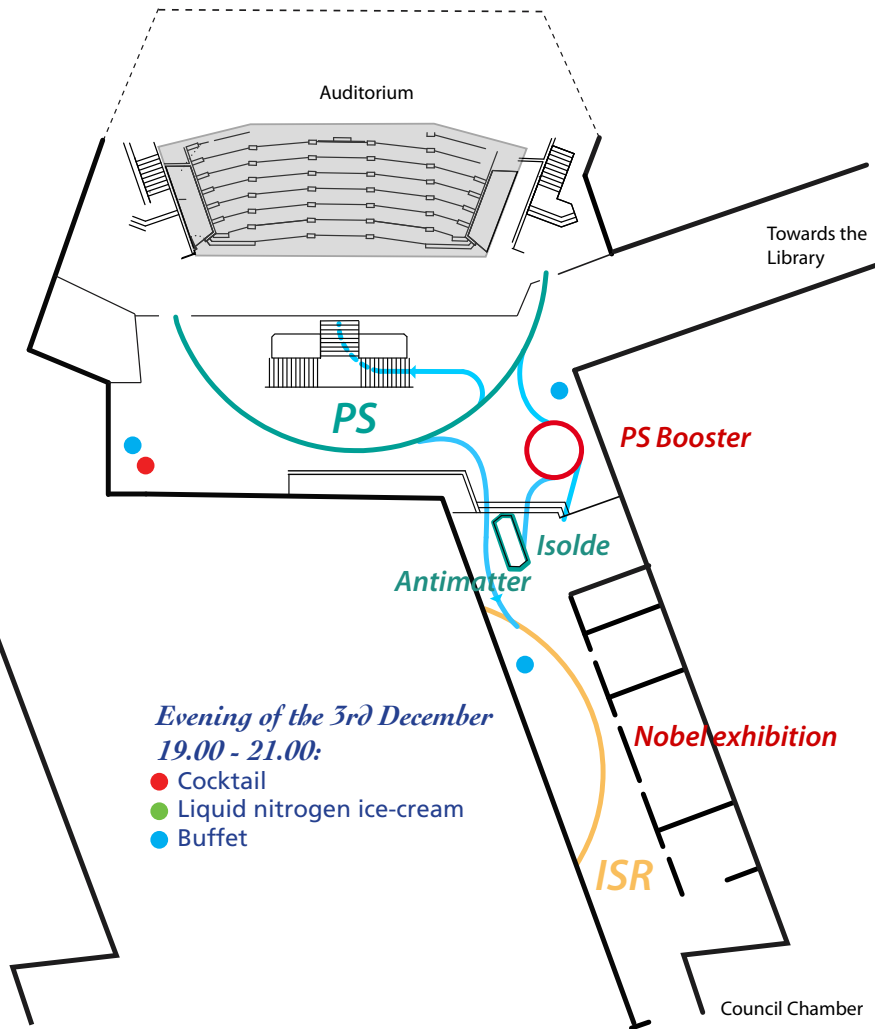

Ground floor

Coffee breaks during the symposium on the 3rd and 4th December in the PS Booster.

Library book sale in the Nobel exhibition area.

First floor

Evening of the 3rd December
19.00 - 21.00:

- Cocktail
